DEL MAR TELEVISION FOUNDATION  
Building Community Through Communications

## FEEL THE BURN—DEL MAR HOT TOPICS

***Dr. Richard Levak  
Renowned Psychologist***

Del Mar’s community and political matters of contention will be openly debated and aired on a lively new TV show titled *Del Mar Hot Topics*. Playing host is the talented and handsome Dr. Richard Levak, a man who has already earned the trust of Hollywood as the psychologist who determines which candidates are most suitable to appear on national TV’s reality shows. Alternating host is T. Pat Stubbs, a familiar name around Del Mar as the man who marketed the racetrack around the globe.

Both hosts will have to rise up to the challenge of acting as mediator and/or potential referee to four guests invited weekly to discuss and debate both sides of a specific issue.

If you want to see steam rising, join them and feel the burn as “Hot Topics” premieres on **October 14, 8.30pm in Del Mar channel 66**. Look for the show on Time Warner San Diego, channel 19 Thursdays at 7pm and Adelphia Carlsbad KDCI channel 3 Mondays at 8.30pm.

- Show #1 examines Del Mar’s Downtown Revitalization.
- Show #2 considers what should be done about the Shores property on 225, 9<sup>th</sup> Street owned by Del Mar Union School District.
- Show #3 addresses the zoning and building of a home in Del Mar.
- Show #4 investigates the ballot initiative and its affect on Del Mar schools.
- Show #5 is a post election wrap-up examining how the outcomes will affect Del Mar.

This program has been underwritten by the Del Mar TV Foundation and Asteres Inc., founded by local resident Linda Pinney who has been working with Scripps and Long Drugs to create the first ever pharmacy prescription checkout.

***T. Pat Stubbs  
Local Businessman***

## Streaming Videos On Demand

This month the Del Mar TV Foundation is kicking off its third annual fundraiser in support of our own community and public television station, DMTV channel 66, a very important community asset. Our fund-raiser this year is unique, in that we are raising the visibility and relevance of our programming by launching a new, exciting weekly program called "Del Mar Hot Topics."

Community support in donations will help us with our operating expenses and equipment purchases, as well as our continuing programming. Samples of cultural and community events covered in the past include Del Mar Community Connections, Powerhouse Park Concerts, Del Mar History Week, the Village Association's Art and Stroll series, and all City Council events including last year's candidate forum. In addition, one of our most successful series continues to be the Producer Showcase, where community producers have an opportunity to apply their creative talents, as well as get hands on experience. Our highly successful Del Mar TV Idol, a singing contest for kids aged 8 through 17 will take place in March, and don't forget our world-class website at [www.delmartv.com](http://www.delmartv.com) Through streaming videos, we now have 24 programs that can be viewed world-wide.

Our goal this year is to continue improving our programming, build awareness in the community for this valuable resource, and attain a status comparable to that of a professional audio-visual broadcast communications facility. Any support you can give will be greatly appreciated, and will be exceedingly important in helping to make Del Mar Television a continuing success. We will be reaching out to touch you in the very near future, requesting your support

## NEW TEXT INSCRIBER ARRIVES

The new Character Generator or "CG" computer has arrived!! This provides the text you see pop up giving a person's name or maybe a telephone number and the credits at the end of a program. The new system an "Inscriber CG Supreme" and already has made a difference for the producer and will make an impact on the council meetings broadcasts for the city. We thank the City of Del Mar for providing funds for the procurement of this system.

Building community through better communication is what it's all about!

# Inside Producers Group

The producer's group has developed and aired several Showcases this past year. It's always a pleasure to work with such creative, talented people and watch the "magic" happen as the show is taped—all in one night. That's the interesting and exciting part of the showcase process is that we have a show all set up and taped from 5pm to 10pm. and ready to air that same night. Every once in a while we run into a glitch that can't be fixed that same night and might take some special editing but all in all the all volunteer group of producer's do a great job! Watch for the latest now airing Thursdays. *"A Movement towards Self Service Starts in Del Mar"* hosted by Ingrid Hoffmeister, featuring Linda Pinney, founder of Asteres Inc. The first ever prescription kiosk dispenser system. A company founded and initiated right here in Del Mar. The system is now in Long's Drug store. Watch the program for details. Please come down sometime and watch or join in the fun by taking one of our classes. So please join us for our networking meetings on the 3rd Wednesday of each month.

We gather at the Del Mar TV Studios at 6:30pm come and pitch your idea or come help crew on someone's show!!

## The Milk & Sugar of Coffee Talk

Hosting Coffee Talk in Del Mar has opened my eyes to the incredible wealth of our seaside community. I don't mean in material terms, more in the breadth of character and achievement that is mine to explore and share with viewers. Getting people to open up and share their stories is one of the most rewarding aspects of my role. In fact, one of my biggest challenges is trying to limit my exploration to what will fit in the allotted timeslot!

Coffee Talk was revived to showcase residents of Del Mar whose lives have taken unusual and interesting turns. We kicked off the series with then Mayor Richard Earnest who was so at ease talking about revitalizing Del Mar, I almost forgot the butterflies in my stomach. And with each show we do, I learn more... from local history, gardening and cultural arts to clearing clutter. We usually tape between 4 to 6 shows in one day, so keeping it fresh can be a challenge, but the work we do before the shoot really helps. Mike Mosakowski helps me contact potential guests. (Special thanks to Ingrid.) I usually spend an hour per guest, on the phone and preparing notes, trying to discover those quirky facts or interesting anecdotes that will hold the viewers' interest. Working without a script or teleprompter means things can go in any direction. And sometimes it does, like the time Don Terwilliger shared a little tidbit about Jayne Mansfield's breast (you'll have to watch the reruns.)

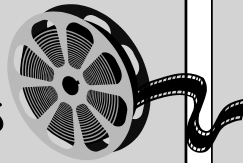

Coffee Talk's Debi Salmon with Susan Lennon of KUSI

The logistics of following leads, contacting people and getting the schedule organized, seems like the most work. We always shoot at a fantastic venue like the Powerhouse, Stratford Court Cafe or a veranda overlooking the sea. We shoot live to tape and Philippe Lamoise mixes on the fly so the pressure's on to get it right first time - and we live with the bloopers. My co-producers and I are grateful for the time our guests graciously donate to community television. We'd love to get some DMTV coffee cups made so we could give them to people who've appeared on the show as a way of saying thank you for being a part of Coffee Talk.

We're always on the prowl for folks who make sharing a cup of coffee an even more stimulating event, so if you have any

# DMTV Classic Film Series
